

Arwa Hamdy Mohammady

DATA SCIENTIST & AI ENGINEER

Phone: [+201117211766](tel:+201117211766) | Banha, Egypt

[E-mail](#) , [LinkedIn](#) , [GitHub](#)

PROFESSIONAL SUMMARY:

Data Scientist & AI Engineer with hands-on experience in Machine Learning, Deep Learning, Computer Vision, Reinforcement Learning, and Data Analysis. Built end-to-end AI solutions including healthcare prediction systems, object detection, and autonomous drone navigation. Passionate about developing intelligent systems using Python and modern AI frameworks while continuously exploring Generative AI and AI Agents.

SKILLS:

- Programming: Python, SQL, C++, HTML/CSS, Jave Script
 - Machine Learning: Supervised & Unsupervised Learning, Feature Engineering, Model Evaluation, Hyperparameter Tuning
 - Deep Learning & AI: TensorFlow, PyTorch, CNNs, Computer Vision, NLP, Reinforcement Learning
-

EDUCATION:

B.Sc. in Electrical Engineering (Communications & Computer Engineering)

Banha University, Egypt | Expected Graduation: 2027

Grade: Very Good

EXPERIENCES:

AI Instructor (Freelance)

Delivered AI & ML introductory sessions for beginner students

Explained core concepts (ML basics, data preprocessing, model building)

Supported learners with practical exercises over 2 months

Graduated from DEPI – Data Science & AI Track (Round 2, 6 months)

[Graduation Project](#)

Graduated from KAITECH – Programming for Engineers Track (4 months)

[Tasks](#)

Machine Learning Intern – Elevvo

Worked on real ML projects such as loan approval prediction, feature engineering, and model evaluation.

Machine Learning Trainee – ITI (Information Technology Institute)

Hands-on training in data preprocessing, model building, and evaluation using Python.

Data Science Trainee – NTI (National Telecommunication Institute)

Focused on statistical analysis, visualization, and applied ML techniques for business data.

Trainee at DEPI – Microsoft Machine learning (Round 4, 6 months)

[Graduation project](#)

AI Agents – ITI((Information Technology Institute))

CERTIFICATES:

[Certificates for courses and bootcamps can be found here](#)

PROJECTS:

Liver-Cirrhosis

- Processed 100+ medical records to predict Liver Cirrhosis stages.
 - Achieved 95%+ accuracy using lightgbm and XGBoost models.
 - Tuned 50+ hyperparameters to improve model performance and generalization.
 - Analyzed 15+ clinical features, including Edema, Albumin and Cholesterol.
-

Exam score prediction

- Built a machine learning model to predict students' exam scores based on performance data
 - Performed data cleaning, preprocessing, and exploratory data analysis (EDA)
 - Trained and evaluated regression models to improve prediction accuracy
 - Visualized key factors affecting student performance
-

COURSES:

- Python – Udemy
 - C++ – GDSC Zagazig
 - Data Science & AI Bootcamp – Banha University
 - English Level BID – AUC
-

VOLUNTEER WORK:

- Vice Head (AI Track) – SIC
- Core Team Member – GDG Banha (AI Track)
- Member – Development Committee (Skills Area)
- Vice Head Logistics – 3abassy
