

Arwa Hamdy Mohammady

DATA SCIENTIST & NLP ENGINEER

Phone: [+201117211766](tel:+201117211766) | Banha, Egypt

[E-mail](#) , [LinkedIn](#) , [GitHub](#)

PROFESSIONAL SUMMARY:

Data Scientist & NLP Engineer with hands-on experience in Machine Learning, Deep Learning, and Natural Language Processing. Built end-to-end AI solutions including healthcare prediction systems and data-driven analytical models. Proficient in Python and modern AI/ML frameworks, with growing expertise in Generative AI and AI Agents.

SKILLS:

- Programming: Python, SQL, C++, HTML/CSS, JavaScript
 - Machine Learning: Supervised & Unsupervised Learning, Feature Engineering, Model Evaluation, Hyperparameter Tuning , Model Deployment
 - Deep Learning & AI: TensorFlow, PyTorch, CV, NLP
 - AI Agents & LLMs
-

EDUCATION:

B.Sc. in Electrical Engineering (Communications & Computer Engineering)

Banha University, Egypt | Expected Graduation: 2027

Grade: Very Good

EXPERIENCES:

AI Instructor (Freelance)

Delivered AI & ML introductory sessions for beginner students

Explained core concepts (ML basics, data preprocessing, model building)

Supported learners with practical exercises over 2 months

Graduated from DEPI – Data Science & AI Track (Round 2, 6 months)

Graduation Project

Graduated from KAITECH – Programming for Engineers Track (4 months)

Tasks

Machine Learning Intern – Elevvo

Worked on real ML projects such as loan approval prediction, feature engineering, and model evaluation.

Machine Learning Trainee – ITI (Information Technology Institute)

Hands-on training in data preprocessing, model building, and evaluation using Python.

Data Science Trainee – NTI (National Telecommunication Institute)

Focused on statistical analysis, visualization, and applied ML techniques for business data.

Trainee at DEPI – Microsoft Machine learning (Round 4, 6 months)

Graduation project

AI Agents – ITI((Information Technology Institute))

CERTIFICATES:

[Certificates for courses and bootcamps can be found here](#)

PROJECTS:

Movie Review Sentiment Analysis

- Processed 100K+ movie reviews for binary sentiment classification.
 - Achieved 86% accuracy using Logistic Regression with Word2Vec feature embeddings.
 - Performed end-to-end NLP preprocessing, including tokenization, normalization, and stop-word removal.
 - Built and deployed an interactive Streamlit application on Streamlit Community Cloud for real-time sentiment prediction.
-

Exam score prediction

- Built a machine learning model to predict students' exam scores based on performance data
 - Performed data cleaning, preprocessing, and exploratory data analysis (EDA)
 - Trained and evaluated regression models to improve prediction accuracy
 - Visualized key factors affecting student performance
-

COURSES:

- Python – Udemy
 - C++ – GDSC Zagazig
 - Data Science & AI Bootcamp – Banha University
 - English Level B1D – AUC
-

VOLUNTEER WORK:

- Vice Head (AI Track) – SIC
- Core Team Member – GDG Banha (AI Track)
- Vice Head Logistics – 3abassy
